# LOGISTICS AND POLICIES

CT-CW is an interfaith esoteric conference. We hope to attract those from all religions and spiritual paths. Disrespectful statements of attacks on anyone else's religion, practices, or metaphysical paths are not acceptable at the conference or in any of the associated electronic forums. CT-CW focuses on bringing together people of different paths to pursue our common goals.

At the conference, derogatory references to other religions and paths are not acceptable. If unflattering descriptions of other paths or practices are required in the course of / needed to explain a point in a workshop, it should be handled with sensitivity and respect. When a speaker cites cases where religions or practices have caused harm, these should be specific, so that it is clear that the speaker is talking about a certain incident, group of incidents, or set of practitioners, not the entire group. This should be supportable/supported with evidence, and couched in terms that make it clear that what was done in the past by some people is not taken to reflect on all people who are part of that group, or the group as a whole. Some of our workshops may include such material in order to allow people to better understand the context of the material presented, or heal such issues, but all such material is to be presented in a way designed to support and promote interfaith and interdisciplinary harmony, not damage it.

In panels and other public areas discussion are to remain respectful, avoiding statements that can be interpreted as attacking the ideas, beliefs or positions of others. Our goals include fostering communication between folk of different backgrounds so that we may all mutually benefit from what each has learned.

If we see disrespectful behavior, we will point it out and offer the individual a chance to make amends. Most workshops and panels will have opportunities to ask questions and share perspectives, however the presentations are under the direction of the speaker, and heckling is not acceptable. Any who refuse the opportunity to take advantage of gentle warnings will be suspected of lack of goodwill. Having been warned, if an offender persists in his/her attack or disrespectful comments or actions, that person will be expelled from the convention, without refund.

**Allergies:** please be careful with materials to which other participants might be allergic – nuts, or other foods that might contaminate food that would otherwise be safe, smoke, latex, etc. Thank you for respecting the difficulties of those with allergies.

**Smoking:** no smoking is allowed anywhere in the hotel.

**Smudging:** No smudging is allowed. Even sage and sweet-grass smoke are dangerous for some. (If a ritual requires "clearing", please use sound or other methods to accomplish this.)

**Photography:** This is a public event. We are trying to create a visual record of the conference, and will be taking photographs to use on our website or in other publicity materials, both print and electronic.

We understand some people prefer to keep their identity private. If you would prefer not to be in any pictures, please wear a **signal dot** (See explanation below) and our photographers will avoid shots of those wearing them. If not, we will assume that, as this is a public event, permission is given to use images in which you appear and that we (CTCW) may use and publish these images in print and/or electronically. You understand that CTCW] may use such photographs of you with or without your name and for any lawful purpose.

**Signal Dots:** CTCW will provide, at no charge to attendees, colored adhesive dots to place on conference badges. If you do not wish to be photographed, please place one of these dots on your conference badge in a visible location.

We shall make every reasonable effort to respect your request for privacy. We ask that anyone else taking pictures at CTCW check before clicking to make sure that no one expressing preference not to be photographed is in your shot. Thank you for your courtesy.

**Door Signs:** There will be signs on doors indicating when a class, meditation or ritual is in progress so you will know if the room is closed and you are not to enter, or if entering quietly is acceptable.

**Blades:** Keep all ritual blades tied into their sheaths when not being used in the ritual. Transport them in a container, as you would a firearm.

## QUIET & HEALING ROOM

### (Room 107)

For those who are overwhelmed by the amount of awesomeness of the con, we invite you to visit our Quiet Room. This room is set up as a peaceful respite where you can go for a time-out and to regain your center. Energy will be cleared each day & reset with energies of peace and balance. We ask that this room be kept sacred and quiet.

With the exception of times when classes are scheduled, people can use this space to have healing done or work on each other. Please check with Maryalyce, our Healing Coordinator, who'll be there, or at Akasha's Journey. The Healing Room is set up for Community-style healing sessions. This means that the room is set up for multiple practitioners to work on multiple clients simultaneously. Be aware that Bear, Maryalyce's lovely, hypoallergenic therapy dog will usually be with her, so there may be a dog-gate across the door. It's meant to keep him in, not you out.

If you are a healing practitioner and would like to volunteer your services during our open healing session, please use the Sign up sheet in the Healing Room or see or contact Maryalyce ([akashasjourney@aol.com](mailto:akashasjourney@aol.com))

## Jeffrey Cerneson

**Classes:** Modern Cunning Craft

Jeffrey Cerneson has been wandering the crooked paths of sorcery for nearly 30 years. His journey began after a series of personal and spiritual crises following his involvement in the first Gulf War. His wanderings led him from humble beginnings in Anglo-Saxon

traditions to the mountains, temples, and hidden doors of the ancient wisdom of the Wu Shaman of China; those Taoist Sorcerers and Sages who have preserved the old sorcery in their secret martial, healing and spiritual arts. He has been trained as a Daoshi; priest, healer and alchemist, by such teachers as Huo Zhi Lian, Tzu Kuo Shih, and Feng Song, and is accounted a disciple of the Tao. From his wanderings in the Far East, he returned to explore the roots of his own blood and ties to the land of his birth. Being of Abenaki heritage, he undertook an apprenticeship in Native American Medicine ways and healing in exchange for the knowledge he brought from China. There he learned singing medicine, the Medicine of the sweat house and the sacred pipe, and the calling of spirits for healing, power, and balance. As he became a primary singer for an Absaroke Wicasa Wakan, his own medicine grew. Along with this growth came an awareness of the need to return to his European heritage as well. While training in the medicine ways was essential to deeper understanding, it has always been to his own cultural heritage that his heart belonged. Returning to his roots, he began to re-examine the cunning arts of the Northern peoples on his own. With his newly awakened senses, and comparing what he experienced afar with what has been written and passed down, his wisdom potency and insight grew beyond what was possible for him before those wanderings. Perhaps most important to the integration of all that he has learned, he has studied the Old World Witchery of Southern Europe, and the Etruscans through training and initiation with Raven Grimassi, and Stephanie Taylor-Grimassi.
